I Kunwar Sunil Kumar, Chartered Engineer hereby further certify that I have Visited both units of M/S Sharp Chucks & Machines Limited situated at A-12, Industrial Development Colony, Jalandhar and Pathankot road, Village Dhogri, Jalandhar as on 07-09-2023 and 08-09-2023.

I have checked all the machinery, electric induction furnaces, Transformers, Milling Machines, Lathes, CNC Vertical Machines and Band saw etc, these are properly installed & operational. Spectro Analytical instruments are properly calibrated & functional, Moulding boxes are properly used during casting, shot blasting machines are also working. All other balancing equipments including fabrication work has also duly verified during my visit and found satisfactory.

The information relating to the estimated annual installed production capacities and the capacity utilization of the manufacturing units included in the materials (as defined below) is based on a number of assumptions and estimates of the management, including expected operations, availability of raw materials, expected unit utilization levels, downtime resulting from scheduled maintenance activities, downtime resulting from change in stock keeping units for a particular product, unscheduled breakdowns, mould changeover, as well as expected operational efficiencies. In particular, the following assumptions have been made in the calculation of the estimated annual installed production capacities of the Company's manufacturing units, and are certified by me:

- Past experience of the management to manufacture the products
- Available orders on hand for the products
- Raw material consumption and the availability of raw materials to estimate the production of each product
